

ORDRUP

Brand Style Guide

Version 1.0 — April 2026

CONFIDENTIAL

1. Brand Overview

Ordrup is the world's first agentic dining platform — replacing static menus with AI-driven intent. Our brand identity draws from Japanese craft traditions: the deep trust of ai-zome indigo, the prestige of kinpaku gold leaf, and the clarity of washi paper.

Our visual language is: trusted, deep, quietly confident, and enterprise-grade.

2. Colour Palette

The Ordrup palette is built on four core colours. Use them consistently across all touchpoints.

Primary Colours

Swatch	Name	Hex	HSL	Usage
	Ai Indigo	#1B3A5C	213°, 53%, 23%	Primary, headings, logo bg
	Kinpaku Gold	#C9A84C	43°, 52%, 54%	Accent, CTAs, highlights
	Sumi Black	#1A1A1A	0°, 0%, 10%	Body text, dark-mode bg
	Shiroi Ivory	#F8F5ED	40°, 33%, 95%	Light backgrounds, canvas

Extended Palette

Swatch	Name	Hex	HSL	Usage
	Success Green	#16A34A	142°, 72%, 37%	Confirmations, positive
	Warning Amber	#F59E0B	38°, 92%, 50%	Alerts, caution states
	Error Red	#DC2626	0°, 84%, 50%	Errors, destructive
	Muted Grey	#9CA3AF	220°, 9%, 65%	Secondary text, borders

Colour Ratios

Primary surfaces: 60% Shiroi Ivory (light mode) or Sumi Black (dark mode)

Supporting elements: 30% Ai Indigo

Accent touches: 10% Kinpaku Gold

3. Logo

The Ordrup Marque

The Ordrup icon is a circular marque featuring concentric rings of gold dots on an indigo field — evoking a ripple pattern inspired by Japanese textile motifs. It symbolises the outward impact of every order.

Icon Construction

- Outer ring: 8 dots at $r=4.8$, evenly spaced at 45° intervals
- Middle ring: 8 dots at $r=3.4$, 85% opacity
- Inner ring: 4 dots at $r=3$, cardinal positions
- Centre dot: $r=4$, full opacity

Lockup

The horizontal lockup places the icon left of “Orderup” set in Helvetica Neue Medium at 30pt. A gold underline bar (48px wide) sits beneath the wordmark. Two versions exist:

- Light lockup: Indigo wordmark on light/white backgrounds
- Dark lockup: Ivory wordmark on dark backgrounds

Clear Space & Minimum Size

Maintain clear space equal to the radius of the icon marque on all sides. Minimum icon size: 24px for digital, 10mm for print.

4. Logo Usage

DO	DON'T
✓ Use on solid indigo, white, or ivory backgrounds	✗ Place on busy images without a backing panel
✓ Maintain proportions when scaling	✗ Stretch, rotate, or skew the logo
✓ Use the dark lockup on dark backgrounds	✗ Use the light lockup on dark backgrounds
✓ Keep clear space around the marque	✗ Crop into the icon or overlap text
✓ Use the SVG source files for digital	✗ Rasterise at low resolution

5. Typography

Primary Typeface

Helvetica Neue is the primary typeface across all Ordrup communications. It provides the clean, confident tone the brand requires.

Element	Font	Weight	Size	Colour
Display / H1	Helvetica Neue	Bold	30–36pt	Ai Indigo
H2	Helvetica Neue	Bold	24–28pt	Ai Indigo
H3 / Subhead	Helvetica Neue	Medium	20–22pt	Kinpaku Gold
Body	Helvetica Neue	Regular	11–12pt	Sumi Black
Caption / Meta	Helvetica Neue	Light	9–10pt	Muted Grey
Code / Data	Courier New	Regular	10–11pt	Sumi Black

Fallback Stack

Helvetica Neue → Helvetica → Arial → sans-serif

6. Iconography

Ordrup uses the Lucide icon set (lucide.dev) across all product interfaces. Icons are rendered at 20–24px with 1.5px stroke weight.

Icon Colour Rules

- Default state: Sumi Black on light surfaces, Shiroi Ivory on dark surfaces
- Active / selected: Ai Indigo or Kinpaku Gold
- Disabled: 40% opacity Muted Grey

Icon Usage Guidelines

- Always use outlined (stroke) icons — never filled variants
- Maintain consistent 24px bounding box across all icons
- Pair with 8px spacing to adjacent text labels

7. Dark Mode

Ordrup supports full dark mode. The operator dashboard defaults to dark. The consumer experience follows the device preference.

Token	Light Mode	Dark Mode
Background	#F8F5ED Shiroi	#1A1A1A Sumi
Foreground	#1A1A1A Sumi	#F8F5ED Shiroi
Primary	#1B3A5C Ai Indigo	#294F7A Lighter Indigo
Accent	#C9A84C Kinpaku	#C9A84C (unchanged)
Card	#FFFFFF White	#1E2D3D Dark card

8. Spacing & Layout

Use a 4px base grid. Common spacing values: 4, 8, 12, 16, 24, 32, 48, 64px.

Border Radius

Default radius: 0.75rem (12px). Cards and modals use the full radius. Buttons use md (10px). Tags and badges use sm (8px).

Elevation

Avoid heavy shadows. Use subtle 1–2px shadows for cards and dropdowns. Elevation should feel like washi paper layers, not floating 3D objects.

9. Tone of Voice

- Confident, not arrogant: “Built for serious hospitality” not “The best platform ever”
- Clear, not clever: “Payments included” not “Seamlessly integrated transactional orchestration”
- Warm, not casual: “Welcome back” not “Hey dude!”
- Enterprise-ready, not corporate: use hospitality language, not SaaS jargon

10. Asset File Inventory

File	Format	Purpose
noshi-lockup.svg	SVG	Light background lockup
noshi-lockup-dark.svg	SVG	Dark background lockup
noshi-icon.svg	SVG	Standalone icon / favicon
sippa-icon.svg	SVG	AI assistant icon

All logo assets are vector SVG — scale to any size without quality loss. For raster exports, use 2x or 3x resolution.
